

**IN THE CLAIMS:**

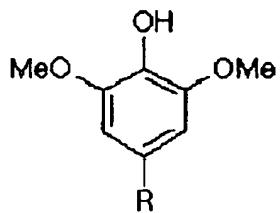

In accordance with the Revised Rules under 37 C.F.R. 1.121, please amend the claims as shown below and indicated as "currently amended." Also shown below are claims that may be original, cancelled, withdrawn, previously presented, new, and not entered.

1. (original) Pharmaceutical composition comprising the guaiacol family compounds shown by the following formula 1 and the syringol family compounds shown by the following formula 2, extracted from the natural plant vinegar,

**Formula 1**

**Formula 2**

where, in the formulas 1 and 2, R is hydrogen, alkyl, oxoalkyl or alkenyl.

2. (original) Pharmaceutical composition according to claim 1,

wherein contents of the guaiacol family compounds and the syringol family compounds are

respectively  $10^{-6}$  to 90 weight% and  $10^{-6}$  to 90 weight% by weight based on the total weight of the compound.

3. (original) Pharmaceutical composition for treating oxidative toxicity comprising the guaiacol family compound shown by the formula 1 of claim 1 and the syringol family compounds shown by the formula 2 of claim 1, extracted from natural plant vinegar.

4. (original) Pharmaceutical composition according to claim 3, wherein pharmaceutical composition is used to prevent or treat stroke, parkinson's disease, heart disease, ischemia, arteriosclerosis, dermatological disease, digestive disorder, inflammation, rheumatism, autoimmune disease or aging.

5. (original) Pharmaceutical composition for regulating blood glucose level comprising the guaiacol family compounds shown by the formula 1 of claim 1 and the syringol family compounds shown by the formula 2 of claim 1, extracted from natural plant vinegar.

6. (original) Pharmaceutical composition for improving blood flow comprising the guaiacol family compounds shown by the formula 1 of claim 1 and the syringol family compounds shown by the formula 2 of claim 1, extracted from natural plant vinegar.

7. (original) Pharmaceutical composition for treating hangover comprising the guaiacol family compounds shown by the formula 1 of claim 1 and the syringol family compounds shown by

the formula 2 of claim 1, extracted from natural plant vinegar.

8. (currently amended) Pharmaceutical composition according to claim 6 ~~or claim 7~~,

wherein the composition further comprises a green tea leaves extract.

9. (original) Pharmaceutical composition according to claim 8,

wherein contents of the guaiacol compound, the syringol compound and green tea leaves extract are  $10^{-6}$  to 90 weight%,  $10^{-6}$  to 90 weight% and 0.01 to 30 weight% respectively by weight based on the total weight of the composition.

10. (original) Pharmaceutical composition for treating atopic dermatitis comprising the guaiacol family compounds shown by the formula 1 of claim 1 and the syringol family compounds shown by the formula 2 of claim 1, extracted from natural plant vinegar.

11. (original) Pharmaceutical composition according to claim 10,

wherein the composition further comprises more than one herbal extract selected from a group consisted of Korean angelica (*Angelica gigas*) extract, cnidium rhizome (*Cnidium officinale* Makino) extract, liquordice root (*Glycyrrhizae Radix*) extract, hoelen (*Poria cocos* Wolf) extract, scutellaria root (*Scutellaria baicalensis* Georgi) extract, paeonia japonica extract, schizandra fruit (*Schizandra chinensis* Baillon) extract and ginger extract.
